Dear Member of the American College of Surgeons,

American College of Surgeons members can use their card to access, and take advantage of, exclusive members-only benefits, which you can review on the College website. ACS member benefits are extended to surgeon members representing all specialities, those pursuing a career in surgery, and those who are part of the surgical and office team.

We value your membership and encourage your active involvement in the College's educational, advocacy, and research activities. Your ongoing involvement is essential if we are to be true to our mission of health: To Heal All with Skill and Trust.

Please contact us anytime at ms@facs.org or 1-800-621-4111.

Sincerely yours,

Michael Sutherland, MD, FACS
